

MARC Mtg. March 7th 2024

The meeting took place at the Law Enforcement Center with Meteorologist Andrew Arnold giving a presentation on Weather Watch training and what and how to report sightings to the weather service. Very well received and very informative.

At 9:00pm Dennis N8ERF brought a short Amateur Radio club meeting to order. There were approximately 15 members in attendance.

By- Law Changes - Dennis N8ERF- Dennis asked for a motion to approve the by-law changes. Lee KC8ITI made a motion to approve the by-law changes that were discussed at the February meeting. David N4DBR seconded the motion. The motion to change the by-law that says information can be shared by other means than a newsletter passed.

A second change was also brought before the club along those same lines. Dennis N8ERF asked for a motion on the floor to accept the new by-laws. Ric KD0RMK made a motion. Seconded by Will K8VFO. Passed.

Salvation Army Key -Lee KC8ITI- Changes in the door locks and the WI-Fi system at the Salvation Army Building have been made. Club members have been asked to use the north east entrance when coming to a club meeting.

Chris-KB8UIH – Reminded us of the MS Walk on April 27th and the Dow Run/Walk on June 1st. Chris is looking for operators to sign-up to help with each of these worthwhile events.

The meeting ended at 9:25 pm.

Respectfull Submitted,
Linda KC8MUD
MARC Secretary
